CODE OF PROFESSIONAL RESPONSIBILITY

I. GENERAL RESPONSIBILITIES

C1.1 — Professional Conduct

The practice of orthotics, prosthetics and pedorthics (Profession) is a recognized allied health profession. The ABC Credential Holder assumes specific responsibilities to physicians and other appropriately licensed healthcare prescribers, patients, the public, colleagues and to the Profession itself. These responsibilities must be discharged with honor and integrity to assure public confidence in the Profession. For the purposes of this Code of Professional Responsibility (Code), the term ABC Credential Holder shall mean any person, facility or organization which may apply or has applied for, and/or has been awarded any of the certifications, accreditations or recognitions offered by the American Board for Certification in Orthotics, Prosthetics and Pedorthics, Inc. (ABC), including residents registered with the National Commission on Orthotic and Prosthetic Education (NCOPE). As used herein, Committee refers to the Professional Ethics Committee of the ABC.

The Profession exists for the primary purpose of assisting patients in maintaining functional lives. ABC Credential Holder(s) shall be responsible for making their best efforts to meet the patient's orthotic, prosthetic and/or pedorthic needs. The manner in which the patient is served is essential to ensuring that the ABC Credential Holder is engaged in appropriate ethical professional conduct. Members of the Profession are responsible for maintaining and promoting ethical practice including, without limitation, reporting unethical practices of other ABC Credential Holders, in accordance with this Code. This Code, adopted by ABC, shall be binding upon all ABC Credentials Holders.

C1.2 — Ethics, Custom and the Law

Unethical conduct may involve violations of customs and generally accepted practices of the Profession as well as actions that violate federal, state and/or local laws and/or regulations. Failure to conform to this Code, including conduct that violates best practices of the Profession and/or moral principles, laws, regulations, and/or customs, may be subject to disciplinary action in accordance with the Rules and Procedures Regarding the Code of Professional Responsibility (Rules). Disciplinary action, if any, depends on the particular circumstances involved and, without limitation, how the conduct in question reflects upon the dignity and integrity of the Profession.

The Committee will take appropriate action, if any, consistent with the Rules. Each ABC Credential Holder has a civic and professional obligation to report to the appropriate governmental body any and all evidence that may come to his/her/its attention involving the conduct of any ABC Credential Holder that violates the Code.

C1.3 — Disclosure of Other Agency Actions

Each ABC Credential Holder must promptly, fully and accurately disclose to ABC any and all investigations, findings and actions by any federal, state or local: (i) orthotic, prosthetic or pedorthic (OP&P) related agency or body responsible for licensing or oversight of health or OP&P related licenses or certifications; (ii) government agency; (iii) quasi-government agency; and/or (iv) licensing board (individually an Agency and collectively Agencies). The ABC Credential Holder's disclosure requirement includes investigations by federal, state or private payers. The ABC Credential Holder's disclosure requirement does not include general billing audits that are not specific to an ABC Credential Holder. Each ABC Credential Holder must make such disclosure to ABC within 30 days from learning of the commencement of action by any Agency. Each ABC Credential Holder must promptly and fully cooperate with ABC, the Committee and the Agencies.

II. RESPONSIBILITIES TO PHYSICIANS AND OTHER LICENSED HEALTHCARE PRESCRIBERS

Valid orders include but are not limited to: referrals, authorizations, hospital or skilled nursing facility orders, or other requests that are consistent with the Profession's standards.

Notwithstanding the above, the ABC Credential Holder may, without prescription or other valid order, provide an off-the-shelf orthosis, pedorthic device or component parts thereof or ancillary supplies for an orthosis, prosthesis or pedorthic device to a patient if (i) he/she/it is not addressing a diagnosed medical condition and (ii) the ABC Credential Holder does not expend his/her/its professional skills in custom fitting the orthosis or pedorthic device, the component parts thereof or the ancillary supplies for an orthosis, prosthesis or pedorthic device to the patient.
